

DELIVERS A POWERFUL PAY-LOAD OF IMPACT...

Slide Sledge
HEAVY EQUIPMENT

Now no one has to hold the chisel!
The powerful Slide Sledge® Heavy Equipment™ Hammer reduces dangerous, time consuming hammer and chisel jobs to a one man, one tool operation. The linear motion of Slide Sledge® focuses power for precision impact to drive pins and make other tough maintenance jobs easier, faster and a whole lot safer. Reduce downtime and increase your profits.

Reduces Downtime

- Eliminates need for special equipment or additional personnel
- Delivers a powerful side load of impact for extreme applications
- Ideal for field maintenance and repairs

Increases Productivity

- Two person jobs can now be completed by one
- Makes repairs faster and easier

Extremely Powerful

- Effectively delivers over 10,000 PSI of impact force
- Use the 5 lb handle weight for additional impact
- Injection hardened, fatigue-proof steel for a long, powerful life

Safer and More Accurate

- Efficient, one person operation - no one needs to hold the chisel
- Eliminates inaccurate sledge hammer swings

Versatile

- Interchangeable, application specific tips allow one tool to do the job of many
- Quick change tips are engineered to get the job done faster and easier

Quickly and efficiently removes track pins and sprocket bolts.

Reaches between ripper teeth for easy removal and installation.

Efficiently rips through dirt and rust to remove pins.

Reduces man hours to complete scheduled and unscheduled maintenance.

Repairs large tires by easily loosening beads without cutting.
